PURIFIED WATER IS HELP TO RUSSIANS

PETROGRAD, Sept. 8.—Cholera has been reduced to an almost negligible number of cases this summer in Petrograd as a result of sanitary measures invoked by the medical forces of the American relief administration through purification of the city's water supply and the inoculation of 75,000 persons.

Purification of the water by the introduction of 250 tons of chloride of lime was made possible through funds furnished by the American Red Cross to the American relief administration. It is the opinion of the A. R. A. medical men in the field that cholera and other summer diseases in Russia will be reduced to a minimum in districts where it has been possible to carry on a preventive program.

VILLAGERS, STORM JAPAN WAREHOUSE

NAGASAKI, Sept. 8.—The seaweed catchers of Miyakojima have adopted "dirty action" with a vengeance. Discontented with the rate of pay, 300 employed by Fujimura, who enjoys the monopoly right to gather edible seaweeds and to engage in fishing along the village coast, stormed the home of their employer and breaking into the warehouse, carried away quantities of seaweed. The villagers are given 4 percent of what they bring in as wages. The price of seaweed recently experienced a remarkable rise and is now quoted at 250 yen per kin. This made Usam's business very lucrative. The villagers continued that the seaweed off the coast of the village was common property and demanding the 4 per cent wage. Fujimura, appointed a representative to present a demand on their employer for an additional allowance of 125 yen for men and 1 yen for women per diem. This being denied, they carried away about 900 kin of seaweed stored in the warehouse.

RADIO TELEPHONE IS ONLY IN ITS INFANCY

LONDON, Sept. 9.—It has become apparent that the wireless telephone is still in its infancy and that a considerable advance in invention must be achieved before it becomes really satisfactory as a means of broadcasting or for other purposes. This is the conclusion of the radio research board's sub-committee, whose report has just been issued.

"We consider that the development of radio-telephony for long ranges is in an extremely elementary stage and we see no line of development which would be likely to lead to its establishment on a commercial basis within a measurable period," they say.

OKLAHOMA CANDIDATES ARE FOUND TO BE DRY

OKLAHOMA CITY, Okla., Sept. 9.—The wet side of the wet and dry issue failed to find an advocate in either the republican or democratic ranks in the eight congressional districts of Oklahoma all candidates receiving nominations having announced themselves as with the drys.

In the first district E. B. Howard received the democratic nomination and T. A. Chandler received the republican nomination. In the second district W. W. Hastings was the selection of the democrats and Alice M. Robertson of the republicans; Third district, C. D. Carter, democrat; Philas H. Jones, republican. Fourth district, T. D. McKeown, democrat; J. C. Pringley, republican. Fifth district, F. B. Swank, democrat; U. S. Stone, republican. Sixth district, Elmer Thomas, democrat; L. M. Gensman, republican. Seventh district, James McClintic, democrat; W. G. Roe, republican. Eighth district, Zack A. Harris, democrat; M. C. Garber, republican.

ECONOMY THE BIG NEED

Uncle Sam has come to the close of a successful budgetary year without a deficit. The experiment seems to have been successful. Present estimates seem to have been successful, but a word of warning is necessary. Present estimates seem to point to present fiscal year expenditures far exceeding the expected revenue. The president has urged the budget director to careful economy to avoid a deficit. Economy is effected only by the systematic saving of small sums. We are a nation of spenders. To be successful, the government's policy must be reflected in every state, locality and household. So long as individuals are lavish, so long as money seems to be so plentiful and of so little value to them, the government will reflect this recklessness in its expenditures. Economy must begin at the source of wealth and production. By individual economy we must give an example to the government.

Remember the job printing department of The Bonanza is the most complete and up-to-date in the state of Nevada. No reservations or exceptions to this statement.

We make no charge for this casting service. The cuts are furnished free to our advertisers.

Call at this office or phone the advertising department, and you will gladly be shown samples.

SERVICE IS UNEQUALLED

AUTOCASER SERVICE is in a class by itself. The Bonanza has installed the latest AUTOCASER, and prompt service is assured.

Let Us Help You Increase Your Business

WHAT IT IS ALL ABOUT

The public has been puzzled to know why the apparently unimportant question of seniority should justify the continued idleness of thousands of men upon the one side and the very serious public menace of a discontinuance of railway transportation upon the other; why it is that trains should be dynamited in New Jersey and abandoned in Arizona; why workmen should be assaulted here and murdered there, when only the question of precedence in promotion was involved, says Mining Congress Journal.

L. E. Sheppard, president of the Order of Railway Conductors, fully explains the issue. In reply to an inquiry as to the attitude of President Harding, Mr. Sheppard says:

"Oh, no. The president has been fair and has been of help in the situation in every way possible. What we now hope for is the getting of help from some railway executives not so tenacious."
